

GHOST

Lisa Simone

**You hurt me constantly in the name of love
Something about my pain made you feel good
Did you ever really love me I'll never know
Cause your way of showing it left me breathless
Hollow this GHOST stayed hidden behind the walls
I built around my heart
So many scars**

**Why did you do it I'll never know
Did you like how I cried
Woe to any other who'd dare do the same
You protected me from everyone else
But not yourself
You protected me from everyone else
But not yourself**

**You hurt me in the name of love
That was your way of loving me
It was a painful love
You protected me from everyone else
No doubt about it
You reserved that right for yourself so well
But I'm still here lovin' you Baby
Baby, Baby, Baby, Baby, Baby, Baby**

**You hurt me constantly in the name of love
Something about my pain made you feel good**

**(It was a painful love, a painful love)
(It was a painful love, a painful love)**

**I remember the look on your face
I remember the feel of the pain
You protected me from everyone else
Yes you did yes you did
But not yourself**
